## At Home

A homemade snow globe is a childhood must! The best part about these snow globes is that they give you the perfect opportunity to get rid of some of the pesky plastic figurines lying around the house. Another idea is to use LEGOs—if your child can part with them!

>**Decide what you would like** to put in your snow globe.

>**Glue, place, and stick** your plastic figurine to the inside of the jar lid.

>**Fill your jar with water** and/or glycerin and add glitter—1-2 teaspoons.

>**Screw the lid on the jar** — glue it if you're concerned about your child trying to open it.
